1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Shaw on May 10, 2006.

The application has been amended as follows:

Amended claims 13-15 as follows:

- 13. A configurable hinge system for mounting between a window sash and a frame, comprising:**
- (a) a four bar hinge assembly having a first stack height, the four bar hinge assembly including a vent bar, a first link, a second link, a third link and a track, the vent bar for securing to the window sash; and**
- (b) a shim non-destructively, removably connected to the vent bar, one of the shim and the vent bar having an aperture and the other of the shim and the vent bar having a projecting tab sized to engage the aperture to form an interference fit.**
- 14. (canceled).**

15. (canceled).

2. The following is an examiner's statement of reasons for allowance: prior art of record fails to show or fairly suggest a four bar hinge-shim assembly having the combination as claimed, including at least one projecting tab formed in one of the shim and the vent bar, at least one aperture formed in the other of the shim and the vent bar to receive the projecting tab. Although using a shim to adjust the spacing between a hinge part and a hinged member is known and common in the art. However, prior art requires additional fasteners for the attachment of a shim between the hinged member and the hinge part in an operable position. As clearly addressed by the disclosure, the shim assembly can be readily engaged with the four bar hinge assembly, without requiring machinery or specialized tooling by simply snap-fit the projecting tab to the aperture.

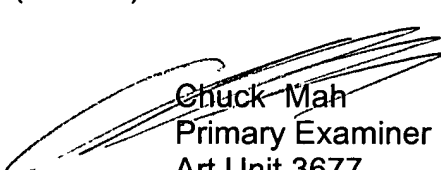

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuck Mah whose telephone number is (571)272-7059. The examiner can normally be reached on 5/4-9.
